

# The New Age Elohim and Yahweh

The Salem New Age Center  
Salem, MA.

MATAARE CHANNELS THE MERLIN

Date: October 6, 1995

Place: The Healing Center, Arlington Massachusetts

Full Trance Channel: Xiota Lahmpsa Mataare

Entity Coming Through: The Merlin, also known as Ambrosia (one of Merlin's most famous incarnations was with King Arthur)

Number of People in Attendance: approximately 70

Recorder / Writer of this Transcription: Andrew Lutts, Salem New Age Center

## THE ELOHIM

The oldest remaining beings in our universe originated about halfway out from the center of our universe, also known as the Great Central Sun. This area is where most of the life is. One of the groups looked around and decided that if they wanted to propagate their species, it would be better to do it outside their established area. So they looked around, secretly, in the outer perimeter of the universe, and found Earth.

By the way, these people halfway out from the center of the universe are human. They are human beings, although they are quite different. They are very respected by other beings in the universe, and the beings around them. After trying to propagate their species in the area of the universe around them, they looked for an area with less interference.

The name given to these non-Earth humans by the ancient Hebrews is the name Elohim, which means "those who came from the sky."

This group of human beings is one of the most advanced group of beings in the universe. They are responsible for the generation of not only life on this planet, but of human beings on this planet. They have been involved ever since the first human was here, in a kind of genetic manipulation, so that the human beings here could result in the capacity of human beings to survive better in the physical universe.

This group of human beings is very advanced, and they have advanced to a point where they believe they have proven that there is no spiritual directive as we know it, with a conscious God. They believe that they are the result of wiser beings who have created them, just as they have created others. They feel this way because life is eternal, and has

always existed. However, the concept of infinity and no beginning is difficult for earth humans to understand.

At a certain point the Earth humans created a kind of evolution which was spurned by this group. By the way, they have started life here on Earth several times before, and all the previous attempts have failed.

Throughout history, the Elohim have come to Earth. They came to Earth at different times, to different cultures, and they heavily influenced these cultures throughout history. They were thought to be the Gods and spirits and so forth of the many existing religions which exist today. The Elohim heavily influenced these religions along a moral structure to help the people of this Earth survive successfully and viably. Therefore, when this didn't work, it became political influence to help establish order. Still, to this day, the Elohim are involved in Earthly matters.

They have manipulated Earth humans and have created Earth humans with a larger brain capacity, with the hopes that the Earth humans would have superior intelligence and that they would be able to continue the species. However, the full brain capacity is not yet fully used.

Back on the Elohim planetary system, they conducted a kind of contest. They invited scientists (artists, sort of) to participate. A certain scientist won the contest. Many worlds were populated with humans as a result. However, there are only three worlds populated with humans left today. The Elohim, the Earth, and the star system known as the Pleiades.

Some Earth humans have had their first incarnations as Pleiadians. The Pleiadians are a very spiritual group of people. This contrasts with the Elohim.

## YAHWEH

The name of the scientist who won the contest to introduce human life was named Yahweh. A human being, just like you, but a little different. This is not to say that there is no spiritual reality, because there is. One of the different functions of your greater brain capacity was that which enables you to become cognizant of a non-physical spiritual reality. They had no idea that the greater brain capacity would create a sort of quantum leap, so to say, in the way consciousness functions. And this enables you to experience a spiritual reality, which was undefinable to the Elohim, so to speak.

This will later be a revolution to the Elohim. As you become a people who are better able to understand spiritual reality you will be able to relay it the Elohim.

The spiritual reality became confused. As Earth humans evolved and came to be aware of a spiritual reality, the Elohim stepped in and said, "We are they," so that they could guide humans.

This is nothing new. This has happened over and over throughout time, with more advanced beings stepping in to proclaim that they are Gods.
